generation	the average period between the birth of parents and their offspring, for
	example daughter, mother and grandmother
growth	the process of growing and getting older
past	having happened or gone by at an earlier time
present	existing at this time
future	time that is yet to come

## <u>Sight</u>

Your eyes let you see what is around you. Sometimes people need glasses to make their sight clearer.

## <u>Touch</u>

Your skin gives you the sense of touch. It tells you if things are soft and warm or smooth and cold.

## <u>Taste</u>

Your mouth and tongue help you to taste. Your taste buds can keep you safe from eating rotten food.

## <u>Hearing</u>

Your ears let you hear what is going on around you. We can hear soft, quiet sounds and heavy, loud noises.

## <u>Smell</u>

Your nose is designed to detect smells. It tells your brain is something smells good or bad.
